Kids Burger	• wheat							•	•						No	No	No

* pine nuts are actually a kernel and not a recognised allergen.

Guide to symbols

- **a red dot** indicates that the allergen is present in the dish. The allergen may appear in more than one ingredient and it may not be immediately obvious, for example; the allergen could be hidden in a sauce.
- ◊ **a purple diamond** indicates that during preparation a piece of equipment, such as a fryer, is also used for another dish which may also contain this allergen.
- a grey box** indicates that the allergen is contained in a simple ingredient and the dish can be modified to remove it. Please ask your server for more details

IMPORTANT NOTE: Please be aware that although the allergens may not be contained in the ingredients of your dish, they may still be present in the kitchen environment and cannot be removed entirely. Therefore, please ensure your server is aware of your allergy or intolerance. This is so that the order can be properly communicated to the kitchen team and they, in turn, can take extra steps to prevent any possible cross-contamination.

In accordance with the law, Gluten is not declarable when less than 20ppm and Sulphites when less than 10ppm.
